

Permanent Makeup Aftercare

Eyebrows

- Gently pat away any lymph every 10 minutes for the first 2 hours to avoid from scabbing. 2 hours after your procedure, gently wash your Brows with Antibacterial Soap. Gently but thoroughly pat dry.
- Gently apply a rice size amount of the ointment provided, 2-3 times per day for 7 days or until fully healed with a clean q-tip. (Avoid touching the treated area as this could transmit bacteria and lead to infection.)
- Avoid getting the treated area wet. Avoid hot steamy showers, saunas, excessive sweating, jacuzzis and swimming for 7 days or until fully healed.
- DO NOT pick or peel any flaking of the skin, flaking is expected as this is a part of the natural healing process. Picking or peeling can result in scarring, infection, pull out the pigment and alter your best results.
- Carefully read over all General Aftercare, for more important Do's and Don't of Permanent Makeup.

Lips

- Avoid eating at least 1 hour after your procedure, spicy, salty or sour foods and licking your Lips. Use of spoons and straws is recommended for the first 24 hours. Gently rinse your Lips with warm water after each meal to keep clean and avoid infection.
- Gently apply a rice size amount of the ointment provided, 2-3 times per day for 7 days or until fully healed with a clean q-tip. (Avoid touching the treated area as this could transmit bacteria and lead to infection.)
- Apply a clean ice pack in 10 minute sessions to reduce any excess swelling.
- DO NOT pick or peel any flaking of the skin, flaking is expected as this is a part of the natural healing process. Picking or peeling can result in scarring, infection, pull out the pigment and alter your best results.
- Carefully read over all General Aftercare, for more important Do's and Don't of Permanent Makeup.

General

- Gently apply a rice size amount of the ointment provided, 2-3 times per day for 7 days or until fully healed with a clean q-tip.
- DO NOT touch the treated area as this could transmit bacteria and lead to infection.
- DO NOT get the treated area wet. Avoid hot steamy showers, saunas, excessive sweating, jacuzzis and swimming for 7 days or until fully healed.
- DO NOT expose the treated area to sun or tanning beds for 7 days or until fully healed.
- DO use sunblock once your Permanent Makeup is completely healed to protect from the sun's harmful UV rays, this will prevent premature fading.
- DO NOT pick or peel any flaking of the skin, flaking is expected as this is a part of the natural healing process. Picking or peeling can pull out the pigment, altering your best results.
- DO NOT apply makeup on the treated area for 7 days or until fully healed.
- DO NOT use skin care products or chemicals such as Retin-A, bleaching creams, glycolic acids, fruit acids or aha acids on the treated area, this could result in fading and alter your best results.

Failure to follow Aftercare instructions may result in infections, pigment loss or discoloration. Signs and symptoms of infection include, but not limited to, severe redness, swelling, tenderness, fever or purulent drainage from the treated area.

CONTACT BORO BROW BLADING AND SEEK MEDICAL CARE IF ANY SIGNS OR SYMPTOMS OF INFECTION DEVELOP.
